

CREATE

The Only Limitation is Imagination

Imagine 2.0 is the professional still-image animation software that gives you the tools to bring new dimensions to your productions by transforming photographs and other still images into movies. The Imagine Scene Wizard and Storyboard mode can help you create compositions in minutes. The intuitive interface features realtime preview and detailed keyframing options for fine-tuning any animated sequence. Imagine 2.0 projects can include music, combine with other Imagine projects and be exported to video formats that are ready for video editing or VideoCD/DVD authoring.

Imagine 2.0: Key Features

- Add "virtual camera" movements including pan, zoom, rotate and skew to high-resolution still images
- Save projects as video clips for easy integration with video editing software
- High-quality image scaling retains sharp, precise photo details
- Plug-in support for Grass Valley EDIUS Pro, Canopus Edit, Canopus Let's EDIT 2 and Adobe® Premiere® Pro 1.x software
- Smart wizards and ready-to-use templates for simplified project configuration
- Multiple image support and easy set up of montages using the Imagine Storyboard
- Audio import support to add narration or music to any project
- Keyframable Blur filter for realistic camera effects
- Anchor and Spline controls ensure precise camera positioning for intricate motion sequences

Imagine 2.0: Specifications

Package Contents:

- Imagine 2.0 installation CD-ROM
- Imagine 2.0 User Manual

Technical Specifications:

Supported Image Formats

- Bitmap (.bmp)
- JPEG (.jpg, .jpeg)
- Targa (.tga)
- Photoshop (.psd)
- JPEG Network Graphic (.jng)
- Portable Network Graphics (.png)
- Tagged Image File Format (.tif, .tiff)
- Amiga IFF Format (.iff, .lbm)
- Multiple Network Graphic (.mng)

- Kodak PhotoCD (.pcd)
- PCX Bitmap Format (.pcx)

Supported Audio Formats

- Wave (.wav)
- MP3 (.mp3)
- Windows Media Audio (.wma)
- Windows Media Video (.wmv)
- AIFF (.aif, .aiff)
- AVI (.avi)
- MPEG (.mpg, .mpeg, .mpa)
- MPEG-2 (.m2p, .mp2)
- ASF (.asf)

Video Export Formats

- Uncompressed RGB AVI (PAL/NTSC, 16:9/4:3)
- Microsoft DV (PAL/NTSC, 16:9/4:3)
- Any DirectShow AVI codec

Minimum System Requirements:

- Intel® Celeron®, Intel Pentium® III, Intel Pentium 4, AMD Athlon™, AMD Athlon XP or AMD Duron™ processor, 800MHz CPU or faster
- 256MB RAM
- 80MB free hard disk space
- Windows® 2000 Professional, Windows® XP Home or Windows® XP Professional
- DirectX 9.0 or later

Service and Support:

- 90-day limited warranty
- Access to the Canopus Registered Users Web site at www.canopus.com when you register your product in an active [Canopus User Account](#)
